|----------|-------------|---------------|------------|
| • NodeJS | • ExpressJS | • JavaScript | • REST API |
| • SQL | • PHP | • Codeigniter | • Git |
| • Docker | • MongoDB | • Redis | • AWS |

PROFESSIONAL EXPERIENCE

Software Developer

Cedcoss Technologies

06/2021 – 10/2023

Lucknow, India

- Created intuitive and visually appealing user interfaces using HTML, CSS, and JavaScript, increasing user engagement by 30%.
- Engineered robust backend systems with Codeigniter 3, PHP, NodeJS, ExpressJS, and MySQL, improving data processing efficiency by 40%.
- Managed and optimized database schemas, queries, and indexes, resulting in a 35% boost in application performance.
- Liaised with clients, designers, product managers, and developers to deliver high-quality projects, enhancing customer satisfaction and project delivery timelines by 20%.

Web Developer - Intern

Croblaze India

02/2020 – 09/2020

Greater Noida, India

- Designed and developed front-end web pages using HTML5, CSS3, and Bootstrap, enhancing user interface responsiveness and aesthetics.
- Improved website load times by 25% through optimized coding practices, contributing to a better user experience.

PROJECTS

Amazon-S3 Simple Cloud Storage 🔗

03/2024 – 04/2024

- Developed a RESTful API with Node.js, Express.js, and MySQL for a cloud storage service, enabling users to upload, manage, and share files and directories. Implemented endpoints for file operations, user authentication, and permission management.

Real-Time Chat Application 🔗

12/2023 – 01/2024

- Built a real-time chat application using Node.js, Express.js, and Socket.IO, allowing multiple users to join chat rooms and communicate seamlessly.

News Aggregator API 🔗

11/2023 – 11/2023

- Created a RESTful API with Node.js and Express.js, featuring user registration and login with bcrypt for password hashing and JWT for token-based authentication.

Task Manager API 🔗

10/2023 – 10/2023

- Developed a RESTful API using Node.js, Express.js, and MongoDB, enabling CRUD operations on tasks. Tested the API with Postman and CURL to ensure reliability and performance.

ORGANIZATIONAL PROJECTS

Developing Fooddesk Company Website	09/2021 – 10/2023
<ul style="list-style-type: none">Implemented new features and optimized code for Fooddesk, a leading provider of allergen data and digital recipe software for healthcare food professionals.Technologies used:- HTML, CSS, NodeJS, ExpressJS, JavaScript, JQuery, MySQL, PHP, and Codeigniter.	Lucknow, India

EDUCATION

Bachelor Of Technology	08/2017 – 08/2021
IEC College Of Engineering And Technology	Greater Noida, India
Percentage: 82.2%	

COURSES

Backend Engineering 	10/2023 – 04/2024
Airtribe	
<ul style="list-style-type: none">In this Backend Engineering course, I have upskilled and learned new skills with practical implementation, such as NodeJS, ExpressJS, MongoDB, SQL, Mongoose, Docker, REST API, Nginx, and Redis.
